Overview

The Shasta floorplan is the perfect combination of both the Tahoe and Snowmass plans. This home features four bedrooms, two and one-half bathrooms and an open-concept main floor layout. The main floor includes a formal living room/home office just off the entryway and a mudroom and powder bath just off the garage. The kitchen, dining area and family room all connect and feature nine-foot ceilings to create an open, spacious feel. Upstairs, you will find three large bedrooms for guests or kids. One bedroom can be removed to create a loft/playroom if desired. Also, upstairs is the master bedroom, which features a stylish master bathroom and large walk-in closet.
